SENIOR · 9 YEARS

FR · NATIVE / EN · WORKING

AI ENHANCED, NOT AI DRIVEN

TEAM LEAD

FRONTEND ORIENTED

UX / UI MINDSET

AUTONOMOUS

PERPETUAL LEARNER

OPEN TO FREELANCE

01 APPROACH

NEEDS-FIRST01

Projects or features need to properly understand the user's needs and the business goals.

BUILT TO EVOLVE02

Building and keeping in mind another developer could take the project over later.

CREATIVE DEV03

Design sensibility; paying attention to the details that make the user experience better.

AI AS A TOOL04

AI is limited to a 1M textual context; it doesn't have human needs and goals in mind. I use it as a support team.

02 SELECTED WORK

MOBILE APP
Relation Link
A small, slow place for two people. You write one message. You seal it. It lands at your partner's hour, not yours.
React Native · Expo · TypeScript · NextJS

SAAS PLATFORM
Technis
Smart flooring solution. Building a SaaS platform for the clients to better manage their buildings.
React · GraphQL · TypeScript · Node.js · SQL

SHOPIFY STORE
Musc Intime
Full rework of the main shopify store, Technical improvements and whole new branding.
Liquid · TypeScript · CSS · React · GraphQL

"Tell me your *needs*, I'll build the solution to *reach* your goals."

03 EXPERIENCE

2017–2021

INTERNSHIP × 4

4 Companies - Full Spectrum
One year each: CDG29 (IT), Triskalia / Eureden (frontend lead, web & mobile), Brioche Pasquier (UI kit, R&D), Alpha8 (web dev). Hosting, backend, frontend, architecture, support, network, etc.

2021–2024

FULLTIME × 2

Fullstack Lead @Alpha8 → Fullstack Dev @Technis
3 years. Alpha8 (2021-22): led a SaaS section - customizable report generator on Apollo Federation, helped shape product direction. Technis (2022-24, Swiss smart-flooring): managed international dev teams, contributed to the Paris 2024 Olympics project, drove documentation and frontend best-practices.

2024–Forever

ENTREPRENEUR · NARELI

Founder & Developer - Nareli
Nareli (since Aug 2024): freelance on Shopify stores, applying the architecture of common projects to complex environments. Creating some products on the side to push AI to limits and give people the tools they need.

TOGETHER

<Insert your company name here>
<Contact me to take place here. I'll help you build the solution to your problems.>

04 EDUCATION

Master/MBA

WEB DEVELOPMENT + MANAGEMENT
2019–2021 · MyDigitalSchool Angers

LPWeb

WEB DEVELOPMENT
2018–2019 · University of Rennes I

DUT

COMPUTER SCIENCE + MANAGEMENT
2016–2018 · University of Rennes I

05 STACK

React-based stacks, Next.js by default. TypeScript everywhere. Technologies adapt to needs and goals; a language is only a way to speak to a computer, not a way to think.

06 BEYOND CODING (ALMOST)

RALLY & MOTORSPORT
The Rallycross is the art of driving a vehicle at the limit of its performance.

ASIAN CULTURE
The culture of respect, discipline and harmony.

PERPETUAL OPTIMIZER
I always optimize my tools to improve my daily life & work.
